

Private Client Insurance

Our team of Private Client Insurance brokers can help protect the things that matter most to you.

Homes, seasonal or vacation properties, vehicles, private collections, watercraft: we are committed to arranging for insurance coverage to protect your assets, whether in Canada or the United States.

We work closely with our clients to build a range of coverages under one policy to maximize your value. Our team of professionals has the expertise to evaluate your particular risk exposures and develop a tailored plan to protect your unique needs and assets.

Distinctive Homes

When it comes to high-value and unique homes, we know our clients need more than a one-size-fits-all policy. For more than half a century, we've helped clients across Canada cover their primary residences, rental properties, out-of-town and out-of-country retreats, and more with the care and attention they require. Regardless of the kind of dwelling that you call home, our brokers have the knowledge and experience to guide you through the process of making sure everyone—and everything—in your household is properly protected.

Private Collections

You've invested money and time into your collection—whether jewellery, art, wine or antiques. No two collections are the same, and neither are the policies that cover them.

We are experts at tailoring coverages that consider the unique needs of your high-value collections. We will work with you and your insurer to account for market fluctuations in their value, with buffer coverage that can pay over and above the scheduled amount in the case of a loss.

Automobiles & Motorcycles

Whether your passion leans toward cars or motorcycles, unique vehicles deserve unique coverage. Our personal automobile or motorcycle insurance policies are tailored to luxury, collector and high-performance vehicles. Our experience in this area also allows us to advise you on any unique risk exposures your vehicle may face. We work diligently to seek out competitive pricing with additional discounts for good driving records.

Private Client Insurance

Watercraft & Leisure Vehicles

From cottage runabouts to luxury yachts, we can provide you with the right coverage for your personal watercraft. We tailor our comprehensive insurance solutions to meet the needs of all kinds of boating enthusiasts.

We can also provide a broad range of coverage options for your leisure and recreational vehicles. From off-road vehicles to motorhomes and travel trailers, we can provide comprehensive insurance solutions for all your leisure vehicle needs.

Umbrella/ Excess Liability

As our society becomes more litigious, high-net-worth families are becoming the targets of lawsuits with greater frequency. This means your primary liability limit under your residential or vehicle policy may not provide adequate limits.

You can protect your family's assets through our personal umbrella or excess liability insurance products, which can cover that portion of a covered damages award that exceeds the limits of the underlying policies, up to the umbrella/excess liability limit. You can also expand your umbrella coverage to protect against lawsuits for defamation and more.

Claims Services
